

Product List

May 2024

Founded in 2021, Rupa Boya Sanayi ve Ticaret Limited Şirketi Our company is located in Kocaeli Başiskele district.

In our production facility, we provide services by producing Polyurethane, Cellulosic, Acrylic, Synthetic Industrial, Epoxy paints and varnishes, as well as the necessary materials used.

With the 20 years of experience of the company owners in this sector, the company follows the dynamics of the market and offers quality, fast and reliable service to its customers.

We continue to make investments in this field by creating an export market to 20 countries as of the year it was first established. We attach importance to always keeping our quality line at the highest level and at international standards.

With our professional production staff and our R&D team that always attaches importance to scientific and innovative studies, we are one step closer to our goal of becoming a company that sheds light on the future in the sector.

This product

Follow us

Our Mission

Rupa Boya, combining years of knowledge and experience, aims to meet customer expectations by offering optimum solutions on the basis of cost and performance.

Our Vision

To be the most preferred supplier by providing fast, complete and high quality solutions to our customers.

What are we doing to be a more responsible company?

We are committed to providing our customers with sustainable products and solutions. That's why we integrate sustainability into every aspect of our business, to the benefit of our customers, employees and the world.

Our Commitments

We have made a commitment to the health and safety of our employees. Guided by our common core values, we have also made commitments to the environment, including the ways in which we aim to increase our energy efficiency. While we are not in a position to put an end to global problems and dilemmas, we have strong principles for dealing with them.

Sustainable Products

Sustainability is not just about producing recyclable products. It's also about finding new ways to benefit the industry. With this in mind, we designed our own eco-efficiency strategy. We also have a sustainable innovation program that uses sustainability tools to measure our success.

Our People

As a company, we can do a lot for the society we live in. Therefore, Rupa Boya Sanayi ve Ticaret Limited Şirketi offers opportunities for our people to make a difference. These initiatives include investing and supporting outreach programs and projects around the world.

Our Planet

In the face of the growing threat of climate change and a shortage of raw materials, sustainability is vital to the future of our planet. We are the materials; We are constantly looking for ways to minimize our impact on the earth and its resources by concentrating on efficiency, energy and climate, water use, and cleaning the land and air around us.

Our performance

We manage and monitor our sustainability performance in every aspect. Our sustainability reports cover what we do and aim to do, how we measure our performance, and how they can measure our overall sustainability.
